

# Jeremy Dorn

Redwood City, CA [jeremy@jeremydorn.com](mailto:jeremy@jeremydorn.com) 512-537-3693

## SKILLS

illustrator SWF SQL **CSS3** apache JSON less video editing  
**HTML5** NodeJS twig android **javascript** audacity  
phonegap OSX Google Analytics **PHP** composer nginx express  
bootstrap **mongodb** memcached jquery magento iOS **SVG**  
**git** gimp symfony2 Optimizely **unix** mootools SVN grunt

## PROJECTS

**JSON Editor** <https://github.com/jdorn/json-editor>

A popular HTML form generator for editing JSON data. It's powered by JSON Schema, written in plain JS (no dependencies), and can integrate with many 3rd party libraries.

**SQL Formatter** <http://jdorn.github.io/sql-formatter>

A PHP class for formatting and highlighting SQL statements. It's included as part of Symfony2's debug toolbar and has over 2 million installs through Composer.

**PHP Reports** <http://jdorn.github.io/php-reports>

A full-featured PHP framework for displaying reports from any data source, including SQL and MongoDB.

## WORK

**Education.com** software engineer **2011-Present**

*30-50 employees, 5 engineers, 6 million unique visitors per month*

Worked on all aspects of the website, including building PHP libraries, creating HTML5 games, database design, analytics and AB testing, admin tools, and API integrations.
